

REPUBLICANS ARE PREPARED TO WORK

WILL PUT UP A LIVELY FIGHT FROM NOW ON.

State Will Be Thoroughly Canvassed by the Best Orators in the Party—Senator Spooner Will Take a Leading Part—All Congressional Candidates To Take the Stump.

There is every prospect that the state campaign, about to be inaugurated with vigor by the republicans, will be one of the most active of recent years. Secretary Stickney, of the republican state central committee, is arranging dates for campaign speakers. There will be about fifty speakers under the management of the central committee—that is, speakers whose work will not be confined to any particular section of the state. E. R. Hicks, of Oshkosh, candidate for attorney general, will make more speeches than any of the other nominees. In all he will deliver twenty-seven speeches, speaking every night, except Sundays, after October 7, until election. President L. D. Hurvay, the nominee for state superintendent, will also do considerable speaking.

Distinguished Speakers. The Milwaukee Sentinel says that Senator John C. Spooner will make about twenty speeches during the campaign, and a similar number will be delivered by Joseph V. Quarles, of that city, who aspires to a seat alongside Mr. Spooner in the United States senate. Ogden H. Fethers, of Janesville, and Eugene S. Elliott, of Milwaukee, have promised considerable of their time to the committee. Two of the younger speakers who will work under the direction of the central committee are A. H. Schmidt, of Manitowoc, and C. R. Barney will travel together.

Among the other well known republicans who have consented to take the stump are: C. J. Smith, of Viroqua, G. E. Roe, of Madison, Gen. Michael Griffin, of Eau Claire, Lieut. Gov. Emil Baensch, of Manitowoc, Dr. A. W. Trevitt, of Wausau, Mayor Charles E. Whelan, of Oshkosh, and R. C. Vernon, of Madison. Ira Bradford of Augusta, Attorney-General W. H. Mylrea of Wausau, Richard Guenther of Oshkosh, B. J. Castle of Black River Falls, L. H. Buncraft of Richland Center, Gen. F. C. Winkler of Milwaukee, A. E. Bleckman of La Crosse, and H. C. Sloan of West Superior.

Candidates On the Stump. All of the congressional nominees will take the stump in their respective districts, and many of the legislative candidates will also make a speaking campaign. In addition, a good supply of local speakers will be furnished by the various congressional, senatorial, assembly and county committees. The State Central committee has made the following dates for E. R. Hicks: October 7, Ripon; October 8, Fond du Lac; October 12, West Superior; October 15, Amherst.

DRUGGISTS TO MEET HERE

Local Members of the Trade Make Arrangements for the Gathering. Thirteen years ago the druggists of Wisconsin met at Janesville and enjoyed a three days' meeting. At that time the attendance was about one hundred. The interest in the meetings has grown until now the average attendance is four hundred, and in 1899 when they again meet in Janesville, they promise to come five hundred strong. Nearly every drug proprietor in the state is a member of the Association. Two sessions are held each day, at which papers are read and discussed, and the balance of the time is given to amusement. Janesville proposes to eclipse all former meetings, and last evening the druggists of the city met at the store of George E. King, who is the local secretary of the association, and formed a local organization for the purpose of making arrangements for the entertainment of the druggists in 1899.

Jos. P. Baker was elected president and Geo. E. King, secretary. A committee on hotels and restaurants was appointed consisting of Ralph Sarassy, W. E. Evenson and Henry C. Stearns. A committee on reception of visitors, Chas. D. Stevens, H. Kirk White, Ed. O. Smith, Harry Rauson and Will Sherer. Committee on advertising, Geo. E. King, W. G. Palmer and E. B. Heintz.

Tuesday evening, August 8, the Traveling Men's association of Wisconsin gave a reception to the druggists of Wisconsin. Wednesday evening, August 9, the ladies of the Druggists' Auxiliary, which is composed of the wives and daughters of Wisconsin druggists, tendered a reception and dancing party to the druggists and drug traveling men. Thursday afternoon the Janesville druggists gave a picnic to the river to the visitors, followed by a parade to the maskers, and dancing party in the evening. The committee are enthusiastic and the meeting will be eagerly looked forward to by Wisconsin druggists.

WANTS THIRD MUSTERED OUT

Sickness in the Regiment in Porto Rico Leads the Governor to Action

Madison, Wis., Oct. 4.—Gov. Scofield will start some day this week for Washington to urge personally the mustering out of the Third regiment, now in Porto Rico. The governor has been unable to accomplish his purpose by mail or telegraph, and thinks that a personal interview with the war department officials will serve the purpose better. When he was in Washington some weeks ago, the officials of the department said that it was necessary to keep some of the volunteer regiments in service, and that the Third and Second Wisconsin seemed the most available regiments for this state to leave in service. As soon as the work of arranging for the relief of the fire sufferers is over, Gov. Scofield will go to Washington to personally urge the matter on Secretary Alger.

It is said that 42 per cent. of the members of the regiment are sick in tents or in hospital—an alarming number, even for troops camped in tropical climates.

FORECAST OF WEATHER

Chicago, Oct. 4.—[Special].—Forecast for Wisconsin: Showers tonight, and Wednesday cooler.

GOES TO LIVE IN CALIFORNIA

Captain Isaac Miles Will Hereafter Reside on the Pacific Slope. Captain Isaac Miles, who for many years has made his home in Rock county north of this city, left this morning via the St. Paul road for Los Angeles, Cal., where he intends to reside in the future with his son.

Captain Miles is widely known, and he numbers his friends in Rock county by the score. During the rebellion he took an active part in organizing a company and went to the front, where he saw some hot service.

California winters, he believes, will be beneficial to him, but after all he says the warm spot in his heart will always be reserved for the Badger state.

THEY LIVED RIGHT ROYALLY

Chicagoans Who Visited the Omaha Exposition Enjoyed Themselves. Ernest V. Baugh, of this city, dining car conductor for the Chicago & Northwestern railroad returned home last evening from a trip to the Omaha exposition, where he had charge of the dining service on one of the special Pullman trains run out of Chicago on Chicago day at the fair.

The train on which he was stationed carried members of the Union League club of Chicago and they went in right royal style. The best was none too good for those aboard and Conductor Baugh saw to it that nothing was neglected.

AN INJUSTICE TO MR. HYZER

Was Not a Candidate for the Democratic Nomination at Milwaukee.

Edward M. Hyzer, senior member of the law firm of Hyzer & Carpenter, is a candidate for district attorney on the democratic ticket. Mr. Hyzer came here from Janesville a year ago, where he had been associated with John Winans.

The Milwaukee Sentinel published the above paragraph. Mr. Hyzer was not a candidate for the place, and knew nothing about any such movement until he saw the above item in the paper. Mr. Hyzer does not affiliate with the democratic party—as he is a republican—and was in no way responsible for the use made of his name by kindly but misguided Milwaukee friends.

THOMPSON IS OUT OF THE CONFERENCE

THE FORMER JANESVILLE MINISTER QUILTS.

Dr. Bosworth's Contention Was Upheld and the Pastor of the Session Congregation Surrenders His Parsonage—Rev. Dr. Halsey's Case—Commend Presiding Elder Pease

The Methodist conference at Waupun has been considering the case of Rev. H. W. Thompson, of this city, who left the First M. E. church to take charge of a "secession congregation" at Fond du Lac. The conference afterwards decided that Rev. Mr. Thompson be allowed to withdraw, having surrendered his parsonage, and refusing to surrender his credentials, the bishop ruled that he may be published in the papers that he is holding Methodist credentials without authority.

The committee which had in charge the protest of Dr. Bosworth, of the Division Street church, to ministers of the conference preaching before a society consisting chiefly of seceding members from his church, reported as follows:

"We regard it as a breach of the spirit of the discipline for a minister of the conference to go into another minister's charge to preach or to hold religious service without his consent." This report was not regarded as satisfactory by the conference and after a discussion it was recommended, Dr. Bosworth's protest will be upheld.

Dr. Halsey's Case.

Presiding Elder Pease presented a bill for \$61.23, the amount of expenses in conducting the prosecution against Dr. Halsey. He stated that the brother in vestigated had paid all expenses on the other side, that the verdict in the vote had been for acquittal on the first vote, and unanimous, and that his character had been passed by the conference. No name was mentioned.

SHIP TOBACCO BY WATER

Considerable Saving in Freight By Using the New Route to Market.

Tobacco growers in this section are pleased at the opening of a new avenue for the transportation of their product to the markets of the east. Hitherto all the leaf raised in the region round about has been shipped east by rail, and the freight charges have contributed in no small degree to keeping down the prices that producers received. On Saturday last the first shipment of Wisconsin tobacco, consisting of fourteen cars, went east from Milwaukee by lake. This shipment only went across Lake Michigan, and the saving in freight was small, but the transportation companies have in contemplation the carrying of the leaf to Buffalo.

There has been more than the usual interest in the tobacco growing industry of the state, says the Milwaukee Sentinel, because of the demand created by the inability of the manufacturers to get tobacco from Cuba and other sources that were closed by the war. Long before the crops were grown, agents of Eastern manufacturers, and some European agents, it is said, purchased the tobacco on estates based on its acreage, before it was grown.

The tobacco comes mostly from the vicinity of Edgerton, mostly from Madison and Janesville. The tobacco that is going through now is last year's growth. A transportation rate "across the lake" from Edgerton to New York of 48 cents on 100 pounds, including insurance on the lake, is being made.

AMERICANS CALL SAGASTA'S BLUFF

SPANISH PREMIER OBJECTED TO GIVE UP PHILIPPINES.

American Commissioners Thereupon Demanded the Entire Group—War May Be Renewed in Consequence—Oregon and Iowa May Be Sent to Bombard Spanish Towns.

Paris, Oct. 4.—[Special].—It looks as though Sagasta's bluff has been called by the American commissioners. The Spanish premier instructed the Spanish commissioners to insist upon the retention of full control of the Philippine Islands. The American commissioners responded with an ultimatum calling for the absolute surrender of the entire group. Thus the matter stands today, and unless one or the other backs down the negotiations for peace will come to naught and war conditions will be restored. It is the general opinion here that the United States has the best of the contention, and astonishment is expressed at the effrontery of the Spanish demand. Such a thing as a conquered nation presuming so far as Spain has done has been unheard of heretofore. It is manifest that there will be no back-down on the part of the American commissioners, and unless Spain recedes negotiations will be broken off abruptly. It is hinted here by those who assume to know the purpose of the American government that if the negotiations fall through the American fleet will be sent off the coast of Spain within two weeks ready to bombard the seaport cities in short order.

MAY SHELL SPANISH CITIES.

Reason Why the Oregon and Iowa Have Not Sailed For Manila.

Washington, Oct. 4.—[Special].—The Oregon and Iowa may not go to Manila as contemplated. Unless there is a better prospect of an agreement by the peace commissioners at Paris the great battleships will form part of a fleet to go to the coast of Spain and enforce the demands of the United States at the mouths of their 13-inch guns. The delay in their departure has not been due altogether to the difficulty of getting them into condition for the voyage, although it affords an excuse. It is more probable that they are held in waiting for developments at Paris.

HE SMELLED POWDER.

But the Bartender Is Yet to Be Heard From.

An undersized German stood on the forward deck of the Hoboken ferry-boat Bergen smoking the stump of a cigar, which smoked the ends of his stubby mustache, says the New York Commercial Advertiser. With him was a companion. The two young men wearing United States uniforms strolled out on the deck. "Look at those chaps," said the smoker to his companion, with a sneer; "they think they're soldiers." "They're all right," replied the second man. "They meant well by enlisting, even if they didn't get into a scrap." "What are you giving me? A soldier's no soldier unless he smells powder. Why, when I was in the civil war—" "You in the civil war! Come off!" interrupted the volunteers' champion. "Why, at the time of the civil war you were nothing but a kid." "Kid my eye! I was 18 years old and smelled powder." "What did you carry, water?" Never mind what I carried, I was there. If you don't believe me ask Col. — of the 24th New York. I was with him. He's alive all right, all right." "The colonel is as big a liar as you are." "Well, ask my brother." "Bigger liar yet." "He's no liar. He went to San Francisco shortly after I enlisted." "Why?" "To get married." "He ought to have stayed there." The cigar stump emitted clouds of smoke. There was a silence for a few minutes. Then the smoker's companion said: "I'll tell you what I'll do. I won't believe you under oath, but if Fred says you were in the war I'll treat. I've got half a dollar left." "What's the bartender?" "Oh! The ferryboat bumped into its slip, the passengers hurried ashore, and the volunteers, who had heard the entire conversation, smiled.

THE DEMOCRATS OPEN CAMPAIGN

HOLD THEIR FIRST MEETING AT MANITOWOC.

Ex Attorney General O'Connor Frees His Mind—Naturally He Doesn't Like the Course of the Republican Party—Candidate Deuster Also Speaks.

Manitowoc, Wis., Oct. 4.—The democratic stronghold of Manitowoc was chosen for the opening of the democratic campaign. Last night was the date, and ex-State Attorney General James L. O'Connor delivering the principal speech, in which he arraigned the present Republican State administration from beginning to end.

He ridiculed the action of the republican convention in nominating a ticket on a platform which, he alleged, condemns the present administration, and then capping the climax by planting upon the ticket the present incumbent as nominee of the republican party. He scored the republican party for defeating the law taxing corporations and for failure to enact laws abolishing the pass system after promising to do so. The republican administration was taken to task on its extensive clerk hire system, after a law was passed against it, alleging that this expense was largely increased than otherwise.

Mr. O'Connor concluded as follows: "These are the scandals, these the broken pledges, these the neglect of the people's interests that the republican party had in view when it adopted by a majority vote the resolution endorsing the present republican administration. "The nominees of the democratic party are solemnly pledged to correct these existing wrongs which I have pointed out."

P. V. Duester, candidate for lieutenant governor on the democratic ticket, also spoke.

DON A MILITARY DISCUSE.

Weary Willies Pose as Heroes of the War.

The latest thing in trampdom is the military beggar. The hoboes are aware of the fact that a uniform is a powerful means of sympathy, and they are utilizing their knowledge. In the large cities military uniforms which have come down from the civil war or have belonged to members of the national guard are on sale in second hand stores and can be had for a song. They are a good investment for an artist in the business of begging. The tales of blood and suffering which are related by these battle-scarred veterans are fully as harrowing as any that a genuine soldier or sailor can tell, and they bring a rich reward through the generosity of the unthinking. Sometimes the poor fellow was with Shafter, but more frequently he was on the Maine, and there is one instance of a fellow in St. Louis getting a quarter by telling how he fought with Dewey before breakfast on May 1. Women are said to be especially susceptible to appeals of this sort.—Buffalo Express.

Everything passed off in perfect order and much praise is due the teacher, Miss Sullivan. The children did honor to themselves in speaking and singing. Speakers Luggs, Ross, Newton, Dickenson, Cunningham and Hendricks gave addresses which held with interest the large crowd. One feature of great importance was the music furnished by the Porter band which was really fine. Tables were spread with everything good and now a fine flag floats from a pole fifty feet high in front of the school house. Long may it wave over the land of the free and the home of the brave.

CLOVER SEED CROP LIGHT THIS YEAR

HEADS DID NOT FILL OUT AS WELL AS USUAL.

Farmers Will Be Short of Revenue From This Source—Seed Is Largely Used for Setting Dyes in Calico—The New Clover Seed Brings Good Prices.

The clover seed crop is light in Rock county this year. It is light compared with the last two years, that is to say. Before that for a number of years clover seed was not much of a staple as far as Rock county was concerned. The heads have a way of not filling and farmers have not placed much reliance on their clover seed as a means of revenue.

Last year the crop was a large one and made the ordinary crop of 1898 look small by contrast.

A fact about clover seed that everybody in Rock county does not know is that only a small share of the crop is used for sowing. By far the greater part of the red clover seed grown in this county is used for calico printing. It does not form a dye but goes to produce a fixative that sets the color in the calico after the printing has been done.

Nothing else seems to answer the purpose quite as well, and only new seed can be used to advantage. New seed is worth \$1 a hundred more than the old. On that account the clover seed must be new and bright to meet the calico printer's requirements.

A MAN CAN'T WORK

WHEN HE IS SUFFERING WITH PILES

He Can't Eat, Sleep, Can't Get Comfort Any Way But One—Pyramid Pile Cure Will Cure Him, Give Relief at Once.

Just a little pain may so distract a man's mind that it will cost him hundreds of dollars. Life is a battle. To succeed one needs all his brain force to apply to the question at hand. Even a corn will make him irritable, cross, angry—and an angry man seldom succeeds. The trifling pain of a corn is a pleasant feeling besides the agonizing ache of piles. That is a pain which seems to pervade the whole body. It communicates itself to all parts near the seat of the trouble and brings on a heavy dragging feeling in the perineum. Those who have never so suffered do not know what it means. It racks the nerves, prevents sleep, prevents concentrated thought and makes a man lose flesh as fast as he would with a virulent fever.

And yet piles are looked upon as a little thing. They are neglected—allowed to run on from month to month and year to year. By and by comes a surgical operation. Maybe it cures—maybe it kills.

There is only one sure, safe and quick cure for piles. It is the Pyramid Pile Cure. It is a recent discovery and its properties are such that it cleanses, soothes and heals the inflamed parts, reduces the inflammation at once and with continued treatment, removes all swelling and all trace of the disease. It puts the membranes in a healthy, active condition and cures completely and permanently.

From C. F. Collins, Garnett: "I commenced using the Pyramid Pile Cure and my case was so bad I thought the remedy was going to fail in my case, but before I had used two-thirds of one package I began to feel much better and can honestly say I am entirely cured. It is the quickest and surest remedy I have ever heard of."

From Josiah Roberts, Port Oran, N. J.: "Just one quarter of a package of the Pyramid Pile cure did wonders for me and I have lost no opportunity of recommending such a great remedy."

From Wm. McHale, Rockport, Mass.: "One package of Pyramid Pile Cure has helped me more than anything I have yet used."

Pyramid Pile Cure is sold by druggists generally. If your druggist doesn't keep it, he will get it for you if you ask him. Book on cause and cure of piles sent free. Address, Pyramid Drug Co., Marshall, Mich.

Terribly Afflicted

Little Girl Could Hardly Breathe Owing to Catarrh

Hood's Sarsaparilla Cured Her and Her Worn Out Mother.

"My little girl was terribly afflicted with catarrh and she could hardly breathe at night. She took many different medicines without benefit and we became almost discouraged. One day I read an advertisement of Hood's Sarsaparilla and concluded to try it. She began taking it and was soon relieved. I believe she is now permanently cured, as she has not been troubled with catarrh for some time. I was run down in health myself and suffered constantly with backache, and felt all worn out. I thought Hood's Sarsaparilla might help me and I began taking it and it has cured me. I have not had any return of the lameness in my back or tired feeling." Mrs. A. H. ALLMAN, Medford, Wisconsin.

Hood's Sarsaparilla Is the best—In fact the One True Blood Purifier. Sold by all druggists. Price \$1:50 for \$5.

Hood's Pills are the only pills to take with Hood's Sarsaparilla.

MAY RESUME HOSTILITIES.

Spain Will Resist Demands of United States.

WOULD RETAIN PHILIPPINES.

It Is Believed That Our Commission Formally Demanded the Cession of the Entire Group of Islands—Spaniards Apply for Instructions.

Paris, Oct. 4.—After the joint session of the peace commissioners Monday adjournment was taken until Friday, the Spaniards finding it necessary to communicate with their home government before proceeding further.

It is the general belief that the Americans formally demanded the cession by Spain of the entire Philippine group. This took the representatives of Madrid by surprise and they asked time to secure instructions from the Sagasta cabinet.

While the United States peace envoys say they expect to complete their work within a month, those well posted insist Spain will never yield to the demands, but will resist even to the extent of declaring off the negotiations and resuming hostilities.

In the Spanish camp great hopes are built on what the commissioners believe Gen. Merritt will advise, namely, that the Philippines are incapable of self-government and that the whole situation does not warrant America in taking the responsibility for the entire Philippines.

The Spanish are quite ready to give whatever America asks in the way of coaling stations, but will resist more, to the verge of a renewal of hostilities.

London, Oct. 4.—The Paris correspondent of the Times predicts a keen contest and expresses the belief that the American commissioners will consent to a compromise rather than embark in a fresh conflict to inflict a cruel wound upon Spain's national pride.

WINTER CAMPS FOR TROOPS.

Places Are to Be Selected in the Middle and Southern States.

Washington, Oct. 4.—The following statement was given out at the war department:

"The secretary of war being questioned as to quartering troops during the winter has had the matter under very careful consideration and has determined, for the good of the service and the welfare of the men, that they should be in open camps, in a climate where, during the winter, they can drill and have free, open-air exercise. The troops, therefore, will be quartered in the middle southern states, where they can live in tents, as provided by plan of the quartermaster-general, which gives stoves to each three tents joined together—two sleeping-rooms and one sitting room. "The secretary of war directed a board of experienced army officers to visit the different sites for the purpose of selecting these camps, and has left that to their judgment, which, however, meets with his full approval."

Secretary Alger announced that Savannah, Ga., had been selected as the point of embarkation of all troops which may hereafter be sent to Cuba or Porto Rico.

COL. ANDEL FOUND GUILTY.

Ordered Suspended from His Rank and Command for Six Months.

Jacksonville, Fla., Oct. 4.—The findings of the court-martial in the cases of the Fourth Illinois officers have been published from corps headquarters. Col. Casimir P. Andel, who is cashier of the First National bank of Belleville, Ill., was found guilty of conduct to the prejudice of good order and military discipline and was ordered to be suspended from his rank and command for the period of six months and to forfeit half of his pay during that time. He was also found guilty of several specifications in the charges.

Maj. L. E. Bennett was found guilty of violation of the same article of war and was ordered reprimanded by the commanding officer, which was done. Lieut. Col. McWilliams and Maj. Lang, also tried before the court-martial, were acquitted.

MEN MUST BE BROUGHT NORTH.

Many Soldiers in Porto Rico Are Suffering from Sickness.

Ponce, Porto Rico, Sept. 27.—It is the well-grounded and almost unanimous opinion of the medical staff of the American army in Porto Rico that the condition of the volunteer forces here necessitates their removal north.

Sickness is increasing, and has been increasing during the last three weeks at an alarming rate. Monday the sick report shows more than 2,700 in hospitals or in quarters out of a total of 10,000 men; that is, more than 25 per cent of the troops are on the sick list. This, however, does not mean that there is an effective strength of 7,500 men. The soldiers discharged from the hospitals as fit for duty are in nine cases out of ten incapable of service, and if ordered on duty are almost invariably back in the hospitals within a few days.

To Hold Troops for the Present.

Washington, Oct. 4.—To a number of callers President McKinley had occasion to reiterate his determination to have no more troops mustered out for the present. In the course of several interviews he stated in substance that it was the intention of the administration to send fresh troops to Porto Rico to take the place of the volunteers, who will have to be returned home, and who will be given furloughs. He stated very firmly that there would be

no general discharges until the situation was "cleared up."

SPAIN FACES A BIG DEFICIT.

Peninsular Budget Falls Short 200,000,000 Pesetas—Secession Talk.

Madrid, Oct. 4.—News received here from Spain's former West Indian colonies shows that the Spanish troops in Cuba are being concentrated at the embarking ports.

The Philippine insurgents, it is learned here, are deliberating as to their future policy.

There is a deficit in the peninsular budget of 200,000,000 pesetas.

Autonomist movements are beginning to manifest themselves in different parts of the peninsula. In Catalonia, it is said, there is a strong feeling in favor of the separation from Spain.

Wheeler at the White House.

Washington, Oct. 4.—Maj. Gen. Joseph Wheeler was at the white house Monday and had a brief interview with the president. Gen. Dodge, president of the war-investigating commission, met Gen. Wheeler as the latter was leaving the white house and notified him to appear before the commission today, which Gen. Wheeler said he would do.

Peace Commissioners Meet.

Paris, Oct. 4.—At the second meeting of the Spanish and American peace commissioners Monday certain propositions were laid before the joint commission, which it was agreed should be discussed by each commission separately. This action was taken with a view of hastening the proceedings. The next joint meeting of the commission will be held on Friday next.

Bryan Ordered South Again.

Richmond, Va., Oct. 4.—Col. William J. Bryan arrived at Culpepper Monday, intending to enjoy the day with relatives there. He had planned to leave today for Hot Springs, Va., but had scarcely got settled before he received an order from the war department ordering him to rejoin his regiment. He left at once for Jacksonville.

To Make a Personal Appeal.

Madison, Wis., Oct. 4.—Gov. Scofield will start this week for Washington to urge personally the mustering out of the Third regiment Wisconsin volunteers, now in Porto Rico.

EXPECT MORE TROUBLE.

Negroes Driven Away from Washington Return Armed with Revolvers.

Washington, Ind., Oct. 4.—No arrests have resulted from Sunday night's riots, the strikers having concealed their identity with masks made of handkerchiefs, which they wore over their faces.

Several members of company D, One Hundred and Fifty-ninth regiment, who are at home on furloughs, were conspicuous in the crowd of strikers. They wore full uniforms, side arms and rudely made masks.

The police and deputy sheriffs are patrolling the city, expecting further trouble. Sheriff Bowman and Gov. Mount discussed the situation over a long-distance telephone, but just what passed between them is not known.

All except three of the thirty negroes who were marched out of town by armed strikers have returned and are walking the streets armed with revolvers.

Case Goes Against Pingree.

Lansing, Mich., Oct. 4.—So far as the Michigan courts are concerned Gov. Pingree has lost his celebrated case against the Michigan Central company to compel it to sell him a family mileage book for 2 cents a mile, as required by the law of 1891. A mandamus requiring such rate to be made was granted by the Wayne circuit court, but the company appealed to the supreme court. The supreme court held against Gov. Pingree. The case will go to the federal supreme court.

TROUBLE EXPECTED IN CHINA.

Admiral Dewey Ordered to Send War Ships to Tien-Tsin.

Washington, Oct. 4.—Secretary LONG, upon advices received at the state department showing the existence of threatening conditions in China, has ordered Admiral Dewey to send two war ships immediately from Manila to a point as near the Chinese capital as possible for a war ship to approach. The vessels selected for this undertaking are the Baltimore and the Petrel. It is expected that the Baltimore will not be able to get beyond the Taku forts, at the entrance of the Pang-He river, upon which Peking is situated, but the Petrel, being smaller, may be able to reach Tien-Tsin, eighty miles above the mouth, and about the same distance below Peking. The officials regret that there is not now on the Asiatic squadron a light draught gunboat of the Helena class, which could ascend the river as far as the Chinese capital.

The action shows conclusively the concern felt by the administration at the existing condition of affairs in the celestial empire. It would seem to indicate that more sensational information had been received from Minister Conger than the authorities have made public.

The state department has received the following cablegram from Minister Conger at Peking: "There is no serious danger yet, but considerable anxiety for the future. The foreign fleet is assembling at Tien-Tsin. Some of the ministers are ordering marines to Peking for legation guard."

Your Heart and Blood

Strengthened, Renewed and Purified By
Dr. Miles' New Heart Cure,
The Great Heart and Blood Tonic.

In spite of the fact that every day there are so many people suddenly taken away by that dread malady, heart disease, the general symptoms are often not recognized. Many people have at and weak hearts who are not aware of it. Weak hearts are as common as weak eyes, and much more common than weak lungs. If you are short of breath; if your heart flutters or palpitates; if you have pain in left side or chest; if your pulse is irregular, or you have oppressed feeling in the chest, choking sensation, weak or hungry spells, smothering or sinking spells, difficult or asthmatic breathing, swelling of the feet or ankles, remember, Dr. Miles' New Heart Cure was especially prepared for these troubles and will certainly give you relief. It is a heart and blood tonic which tones up the heart, purifies the blood and gives it new life and color.

Read the following letter from Mr. James Cunningham, of Lenox, Mass.: "I am very thankful for the great benefit I have received from Dr. Miles' New Heart Cure. I suffered for thirteen years from heart troubles of various kinds, was short of breath, and at nearly every breath a sharp pain would pass through my left breast. I had to sit up in bed after night, fearing to lie lest I should smother. My stomach began

to bother me; gas would form and would cause a great deal of uneasiness. My appetite failed me and I grew pale and thin. While I was in that serious condition I began taking Dr. Miles' New Heart Cure and it did for me what physicians with all their skill failed to do. It stimulated my appetite, assisted my digestion and filled my arteries with the rich red blood of health. It corrected my heart action, drove the pain away and finally restored me to health. I am now enjoying better health than I had before for many years. When people ask me what makes me look so strong and well I always reply it was Dr. Miles' Heart Cure did it."

"I was terribly afflicted with heart disease and had spent so much money for physicians and medicines that I was completely discouraged. About that I saw an advertisement of Dr. Miles' New Heart Cure and decided to try once more. The very day I purchased it and after it had been brought into the house my physician called. He made a careful examination and then advised me that I could live but a short time. When he had gone I sent for the bottle of Heart Cure, took a dose and retired. In the morning I felt better than I had for some time, which encouraged me so much that I continued using it and in a

few weeks I was able to return to my business." JOHN W. SIMCOE, Wellsburg, N. Y.

"Having been relieved of a slight heart trouble with Dr. Miles' Heart Cure, I sent a bottle to a friend who was so bad he could not lie down. It helped him as it had helped me. He continued its use, and now he can do a good day's work, and is a stout, healthy man. He says Dr. Miles' Heart Cure saved his life, and I believe it did."

J. S. MULLER, Carrollton, Ill.

THIS DAY IN HISTORY.

1743—Henry Carey, musician, author of "God Save the King," died in London.
1777—Battle of Germantown and defeat of General Washington.
1812—General Jacob Brown defeated the British at Ogdensburg.
1822—Rutherford Birchard Hayes, nineteenth president, born in Delaware, O.; died Jan. 17, 1903.
1880—Johannes Offenbach, celebrated musical composer, died at Paris, born 1810.
1895—Professor Ejlaunor Bjorth Boyesen of Columbia college, well known as an author and literary critic, died in New York city; born 1848.

Gov. Holcomb, of Nebraska, has the say as to which of the Nebraska regiments shall be mustered out, the war department having left the matter to him. The soldiers of the First Nebraska are at Manila, and the people think it should be brought home. The Second is home on a furlough and 75 per cent of the men insist that they be mustered out. Gov. Holcomb's idea in asking that another regiment be relieved from duty was that the Third—Col. Bryan's regiment—would be the one selected. Bryan wants to quit soldiering and take up the political cudgel and Holcomb undertook to manage it for him. The rules of the war department, however, compel Holcomb to make the choice and it is now a question of whether he will decide in favor of Bryan or the people.

The antics of the "regular" democrats in attempting to dodge their responsibility for the free silver plank in the state platform, are really laughable. The organs have been instructed to fill the air with din in hopes that the issue can be kept in the background. The effort will fail, however, for the people of Wisconsin are too intelligent to be caught with chaff.

The democratic campaigners disown the free silver plank in their platform. This fact shows that they do not believe in the silver theory themselves. They are trying to get votes for a cause in which they have no faith, by false pretenses. Many of them do not relish the situation, but the silver machine has given its orders, and the campaigners must obey.

W. H. Appleby is the choice of the people for sheriff. The republicans are supporting him to a man, while the anti-silver democrats, who do not believe in "packed" county conventions, make no bones of saying that they propose to vote for him. Efficiency is always recognized, and Mr. Appleby's ability as an officer has won him a good name all over Southern Wisconsin.

General Shafter refuses to be interviewed in regard to the war department controversy. He says he performed his duties to the best of his ability and has no criticisms to make. He predicts an increase in the army soon, as there are not enough troops in the service for garrison duty.

City Attorney Burpee is not in favor of settling damage suits against the city. He prefers to spend the money in fighting them. "Millions for defence," etc. applies well in these cases, and a good stiff fight on each suit would tend to discourage the "industry."

The first fatal accident during a game of football occurred Saturday. The football player faces dangers that would make a soldier quail. There is something sentimental about dying for one's country, but to die in behalf of a brutal game, or should be, quite another story.

As the result of the German decree excluding foreign meats, the poor people

are now eating dogs and cats. It would appear, therefore, that the action in barring American beef and pork was not much less than criminal under the circumstances.

The dissatisfaction in the democratic party in Rock county continues to grow. The ring ran the county convention in such a barefaced manner that the voters of the party are disgusted, and say they propose to have something to say themselves.

Aguinaldo, the Philippine insurgent chief, refuses to take money voted to him by his government, and says his men must be paid first. Hence, a mark should be put down in his favor.

Admiral Dewey reports that the climate of Manila is fine. Of course it is. Anything within Dewey's jurisdiction that fails to "be good," gets hard knocks and plenty of them.

It is now announced that General Fitz-Hugh Lee will be mustered out, as he prefers a United States senatorship to the position of major general.

Perhaps the war department is also responsible for the yellow fever at Jackson, Miss.

The Duck River Baptists' Association is in session at Nashville, Tenn.

He Will Set the Ball Rolling on October 15—An Able Speaker and Brilliant Campaigner—He Should Have a Large Crowd to Listen to His Exposition of the Issues.

Hon. Charles E. Whalen, mayor of Madison, and a public speaker of ability and eloquence, will address the electors at Edgerton on the evening of Oct. 15. This will be the first meeting of the campaign in Rock county, and there should be a full attendance of republicans. Mayor Whalen is one of the most popular of Madison's citizens and a campaigner of well known force and talent. He will be well worth hearing.

To Build Chinese Railroad.
Seattle, Wash., Oct. 4.—A. W. Bash, general agent of the American-Chinese Development Company, sails Oct. 10, with W. Barclay Parsons, chief engineer of the company, for China to start work on one of the greatest railroads to be built in that country. The company, headed by ex-Senator Calvin S. Brice, has obtained a concession to build a railway from Hankow to Canton, and the sea opposite Hong-Kong, traversing one of the richest districts of the empire. The company is capitalized at \$40,000,000. It will obtain most of its material on this coast.

Signal Troops Coming Home.
Washington, Oct. 4.—The company of Illinois signal troops under command of Capt. John W. McConnell left Washington this afternoon over the Pennsylvania railroad and will arrive in Chicago Tuesday at 5 p. m. They will then be furloughed and sixty days later will be mustered out of service. These are the only troops, outside of the First Illinois regiment, from Chicago who have seen service beyond the sea, and they have received the highest commendations from Generals Brooke and Haines and other commanding officers.

Dr. David J. Hill Appointed.
Washington, Oct. 4.—The president has appointed Dr. David J. Hill of Rochester first assistant secretary of state to succeed John Bassett Moore, resigned. Dr. Hill is president of the Rochester University, is a scholarly gentleman, and is particularly known through his knowledge of international law. He has taken a prominent part in New York politics, and has delivered many public addresses during recent campaigns. He is now in Holland, but is expected to return at once, having accepted the position tendered.

Brought \$50,000 in Dust.
Seattle, Wash., Oct. 3.—The steam schooner Discovery arrived at midnight from Alaska with 100 passengers and about \$50,000 in gold dust. The treasure was owned by a few men. A. Hellworth is credited with \$15,000; George McCord, \$10,000, and Dan McDonald, a brother of Alexander McDonald, the mining king, is said to have brought out \$10,000.

Murder Quickly Avenged.
Victoria, B. C., Oct. 4.—A report has reached here of the murder of Alphonse Le Clair by Xavier Lauson near Lake Teslin. Both were members of a party of French Canadians from Quebec. The murderer escaped, but was overtaken after a chase of five hours and riddled with bullets by the other members of the party.

The Seventh Army Corps.
New York, Oct. 4.—Gen. Fitzhugh Lee, interviewed in this city, said that the seventh army corps, of which he is commander, would probably go to Cuba about the last of this month. He had fifteen regiments under his command, and the general health of the corps was excellent. Only 2 per cent had been on the sick list since they had camped at Jacksonville.

GOOD TEMPLARS OPEN GRAND LODGE

SATISFACTORY CONDITION OF
THE ORDER SHOWN.

Finances Have Improved During the Year and the Membership Has Steadily Increased—The Attendance Comprises Leading Members of the Order—From All Sections.

The forty-third session of the Grand Lodge of Good Templars of Wisconsin convened in Odd Fellows' hall at 10 o'clock today with a large attendance from all parts of the state.

Grand Chief Templar Rev. W. H. Clark of Ripon; Grand Vice Templar Mrs. Sadie Galloway, of Marshfield; Grand Supt. Juvenile Temples H. A. Larson, of Green Bay; Grand Treasurer Mrs. L. A. Parker, of Milwaukee; Grand Electoral Superintendent E. W. Chaffin, of Waukesha, were present. These are all the members of the executive committee that will be present at this session. The grand councillor, Capt. J. F. Cleghorn, of Clinton, has died during the year, the grand secretary, Lieut. Col. B. F. Tooker, of Milwaukee, is now with his regiment, the Third Wisconsin, in Porto Rico.

The session opens under the most favorable auspices. The grand lodge year now closing, has been one of prosperity. Despite the war which has taken many of the best workers from their lodges, in the different parts of the state, there has been a gain in membership and the financial condition of the order in the state is much better than even the most sanguine of the members thought possible one year ago. At that time the Grand Lodge was in debt about \$1,200, which necessitated a radical retrenchment in the expenditures, and to meet this it was decided to retire the grand chief from the field, where for over a quarter of a century he has given his entire time superintending the work. But notwithstanding his retirement from the field, the reports show that not only have outstanding bills been paid, and about \$100 in the treasury, but there has also been a gain of about 500 in actual paid up membership.

The reports of the officers show a healthy condition of things in all departments of the order in the state.

Much important business will come before this session growing out of the recommendations made by the members of the executive committee in their annual report and matters coming from subordinate and district lodges by many petitions, memorials, etc.

Mrs. Mary Richardson, of Sparta, was appointed grand secretary pro tem and R. M. Potter, of Farmington, assistant secretary.

The following standing committees were appointed for the session:

On Credentials—Mrs. May Richardson, R. M. Potter, Mrs. A. H. Rogers, John Wallis.

The following are the chairmen of the standing committees.

By-Laws—J. F. Carle, of Albany.

Good Templar Training School—Rev. W. R. Brown, of New Richmond.

Enforcement of Prohibitory Law—Hon. S. D. Hastings, of Green Bay.

Obituary—E. W. Chaffin, of Waukesha.

Good Templar Mutual Benefit Association—Geo. Straton, of Janesville.

Literature—Mrs. Alcie Reed Walker, of Prescott.

Appeals—H. A. Larson, of Green Bay.

District Lodges—C. M. Taylor, of Loyal.

Finance—Fred J. Wood, of Milwaukee.

State of the Order—L. B. Walker, of Prescott.

One hour or the afternoon session was given to memorial services in memory of Capt. J. F. Cleghorn, Grand Councillor, who has died during the year.

COUNCIL WILL TALK MACADAM CONTRACT

That Portion of High Street That Faces High School Building Will Be Macadamized—Council Will Give All Bidders a Show—Looks Like Cape & Son.

A special meeting of the common council will be held this evening. Several matters are to be taken up, but the whole substance of today's call is just this:

That portion of South High street that borders on the High school, as well as portions of the side streets that face same, are to be macadamized this fall and the council will make the necessary arrangements for advertising for bids and to close up any details in regard to the work. Cape & Son, of Racine, who have just finished macadamizing North Jackson street, have done a job that the city fathers are well pleased with. Their charges have been moderate.

Main Street Work

On South Main street they now have well under way the work of macadamizing that thoroughfare and will in all probability complete the job within the next ten days. Before leaving for their city fathers are willing that they should macadamize that portion of South High street mentioned, and that they may bid before their departure was what tonight's meeting was called for.

POLICY HOLDERS WILL RESIST

Mail Insurance Company Must Collect Its Assessments in the Courts.

A committee consisting of Henry Tarrant, of La Prairie; Thomas Jameson, of La Prairie; and J. M. B. Gunn, of Rock, were appointed yesterday afternoon by the Rock county tobacco growers to go to Stoughton and interview the tobacco growers' committee of Dane county. In case they are unable to obtain the necessary and sufficient information the committee will proceed to Madison and Sparta. The sum of \$21 was contributed by those present at the meeting towards defraying the expenses of the committee.

It is thought by some that the better plan would be to bring a suit against the company on the charge of fraud, but the attorneys advised the policy holders to do nothing more and let the company bring suit against one of them and it would be tried as a test case and all the others would contribute to the cost of the proceedings.

Another meeting will be held next Saturday afternoon at one o'clock, when a report of the committee will be made.

Boys in Training for Housewives.

It is doubtful if the majority of mothers realize the importance of training boys from the cradle for their duties as husbands. Even those who themselves have suffered from the neglect of their mother-in-law properly to bring up the men they have married seldom make any direct attempt to render easier and happier the lot of the women who shall in time become united to their own sons. Boys are bred to be as selfishly intent upon their own comfort, as thoughtless of the will and the pleasure of the other sex, and as unconsciously sure of the innate masculine right to accept as a matter of course any sacrifice from a feminine source, as if the whole world had not for centuries been taught by facts that half the miseries and misadventures of domestic life are due to the prevalence of these very errors. If anything could excuse the thoughtlessness of so many men in their treatment of their wives, it would be the fact that they are trained to this habit of mind by the ill-directed affection and mistaken indulgence of their mothers.

FORMATION OF A CYCLONE

Inception of the Twisters That Deal Destruction.

To get an idea of a cyclone's formation imagine a large circular pan or tub with quite a large hole in the middle of the bottom. With this hole plugged, fill the vessel with water; then draw out the plug and watch. There is first a rush of water from all directions toward the hole and a turbulent effort to get through. Then the water surface above begins to sink and swirl, the particles gradually circling around and around, and rushing, ever faster, toward the center. At last there is actually a hollow space through the center, around which all the water in the tub is whirling, sluggishly near the rim, but with more and more violent rapidity toward the middle, until it rushes downward through the bottom. Now, if that water were air you would be watching a little cyclone turned upside down, for the air rushes upward instead of downward. In the cradle of cyclones during the summer months, when the land and the water grow hotter and hotter because of the longer days than nights, a layer of air, hot, light, and full of vapor, is for a time held down by denser air above it. Restless, expanding, tumultuous, it moves about like a beast at bay, until a thinner place in the air above is found. Then up it madly rushes and into the vacuum left behind the lower atmosphere hastens from all directions, pushing and twisting and pouring upward until it has fallen into a regular spinning around a common center. The cyclone, once formed, rushes away from the tropics toward the pole, and begins its career of destruction, bruising, wrecking and sinking the luckless ships which happen to be in its path. More and more of the surrounding atmosphere is drawn into the whirl, until the storm often covers an area nearly 1,000 miles in diameter. Sometimes it flings itself upon our Atlantic coast and tears fiercely through forests, fields and cities. Then again it sweeps away across the broad ocean and dashes itself upon the coasts of Europe. Once in a while it so adroitly avoids the land that we never know it has passed until ships come in torn and broken.

A Famous Sea Fight.

On the 23rd of June, 1340, was fought the battle off Sluys, on the coast of Flanders the bloodiest of all the battles in the annals of the British navy. The British fleet consisted of 250 vessels and the French of about the same number. The latter was manned by 40,000 Normans. The action lasted ten hours. The French fleet was annihilated; 25,000 of its sailors and soldiers were killed and 2,000 were drowned. The English loss was 4,000.

HEAVY DAMAGE BY STORM.

Hurricane at Fernandina, Fla.,
Caused Loss of \$500,000.

THREE DEATHS ARE REPORTED.

Buildings in the City Are Wrecked—
Tidal Wave at Brunswick, Ga., Inun-
dates Practically Every Business House
and Warehouse in the City.

Fernandina, Fla., Oct. 4.—The most
severe hurricane that Fernandina has
ever experienced has caused loss esti-
mated at \$500,000. Three deaths are
reported, a father and two children.
The tide rose so high that it extended
for four blocks up into the city and
homes and buildings of all descriptions
were flooded. Women and children
were taken out of the houses on the
river front in boats. Kel & Bros.,
warehouse, filled with merchandise of
all kinds, was totally wrecked. Four
large churches in the city were wrecked,
to say nothing of the halls and
residences which were blown away.
The streets for four blocks up into
the city are blocked with wreckage.
Brunswick, Ga., Oct. 4.—During the
tropical hurricane of Sunday a tidal
wave was driven in from the sea and
inundated for an average depth of five
feet, practically every business house
and warehouse in the city. Conserva-
tive estimates place the property loss
at \$500,000. In the residence section of
the city the water was from two to
eight feet. The Oglethorpe hotel, the
leading hotel of the state, was flooded
so that everything on the first floor
was ruined.

WILL IGNORE THE VOTE.

Canada's Declaration for Prohibition
Held Not to Be Representative.
Ottawa, Ont., Oct. 4.—Judging from
present returns on the prohibition
vote, barely one-fourth of those en-
titled to vote gave expression to their
opinions on Thursday. As a conse-
quence, it is learned that the govern-
ment will ignore the whole proceed-
ing. The few ministers in town are
reticent and decline to speak for pub-
lication, but the fact is known that
no notice will be taken of the vote.
It is pointed out that the largest ma-
jority recorded is that against prohibi-
tion in Quebec, and that apathy was
general among the voters.

Powers May Occupy Peking.

London, Oct. 4.—A dispatch from
Shanghai to a news agency says it is
expected that the powers will jointly
occupy Peking, owing to fears for the
safety of the foreign communities.
The ministers of the various powers
have held an emergency meeting, and
have sent a note to the Tsung Li Ya-
men (foreign board) respecting the
threats that have been made to murder
the diplomats. The ministers have
also forbidden foreigners to go to Pe-
kin. The German warships, which
were at Kiaochow, started hurriedly
for Taku yesterday.

Fifth Army Corps Disbanded.

New York, Oct. 4.—The splendid
though brief career of the Fifth Army
Corps was officially ended at Camp Wi-
koff Monday by this order:
"General Order No. 50.—In compli-
ance with instructions of this date
from the secretary of war, the disband-
ment of the Fifth Army Corps is here-
by announced. The short and success-
ful campaign of this corps before San-
tiago de Cuba will fill a brilliant page
in the history of our country."

Seek to Repress Anarchy.

London, Oct. 4.—The interchanges
of opinion among the powers in regard
to the international measures against
anarchists have resulted in expressions
favorable to such action. All of the
powers agreeing to the proposal. An
international conference will accord-
ingly be summoned to meet in Rome
to discuss the steps to be taken in the
matter of common anti-anarchistic ac-
tion.

Corbett Refuses to Fight.

New York, Oct. 4.—James J. Corbett
definitely announced Monday that he
would not meet "Kid" McCoy Oct. 15.
When closely questioned on the sub-
ject further he declared that he had
nothing at all to say. He expressed
it as his intention to quit the east and
make a trip to San Francisco, where
he would be able to get fair play.

Knights of Pythias Meet.

Indianapolis, Ind., Oct. 4.—The
Knights of Pythias of Indiana are en-
gaging in a contest over the offices of
the order. Six hundred representatives
of the order are here attending the
meeting of the grand lodge. The chief
contest is between J. E. McDonald of
Ligonier, and George W. Powell of
this city, for vice-chancellor.

For Reforms in Prisons.

Richmond, Ind., Oct. 4.—The Indiana
yearly meeting of Friends Monday
heard the report of the committee on
prison reform. There has been much
favorable legislation, including the
laws providing for parole, indetermi-
nate sentences and non-partisan prison
boards.

Illinois Masons Meet Today.

Chicago, Oct. 4.—The fifty-ninth an-
nual session of the Masons of the
Grand Lodge of Illinois began at Cen-
tral Music Hall at 10 o'clock this morn-
ing. At the same hour the Grand
Chapter of the Eastern Star convened
in Medinah temple.

Names Cambon's Successor.

Paris, Oct. 4.—Figaro states that
Count d'Aubigny, now French charge
d'affaires at Munich, will replace Mr.
Cambon as ambassador to the United
States and that M. Cambon will go to
Madrid.

Lyttton's Misunderstood Jest.
Lord Lyttton when viceroy of India
was seated one day at dinner next to a
lady whose name was Birch, and who,
though very good looking, was not
over intelligent. Said she to his ex-
cellency: "Are you acquainted with
any of the Birches?" "Oh, yes," re-
plied Lord Lyttton, "I knew several of
them most intimately while at Eton—
indeed, more intimately than I cared
to." "My lord," replied the lady, "you
forget the Birches are relatives of
mine." "And they cut me," said the
vicerey, "but," and he smiled his
wonted smile, "I have never felt more
inclined to kiss the rod than I do now."
Said to say, Mrs. Birch did not see the
point, and told her husband his ex-
cellency had insulted her.—Argonaut.

Fortunate Bostonians.
People who live in Boston are often
considered fortunate on account of the
many advantages which they have.
The best of public schools, the finest
libraries that are to be found anywhere,
and hundreds of equally desirable at-
tractions that help make life worth liv-
ing.

Boston's chief and greatest advantage,
however, is its possession of the most
successful specialist in curing blood
and nerve diseases. We refer to Dr.
Greene, who has his office at 148 State
Street, Chicago, Ill. This famous doctor
is a blessing to humanity, for he
charges nothing to anyone who may
call upon or write to him for advice.
Inasmuch as he will conscientiously
advise by letter, this greatest of Bos-
ton's advantages is being extended to
the whole of the United States. We
would advise sufferers from blood and
nerve troubles, or any of the many
blood and nerve troubles resulting from
this derangement, to consult at once
this great specialist.

Almost everybody will connect Dr.
Greene with the fact that he is the pro-
prietor of Greene's Nervum, the most
wonderful of all blood and nerve reme-
dies.

Reduced In Price to \$1.00 Per Sack.

Gold Medal Flour is true to its name--a medal winner. Has carried off the highest awards at Centennial Exposition, 1876; Miller's Exposition, 1880; World's Fair, 1893; Atlanta Exposition, 1895; and innumerable state and local fairs for the past twenty years. Gold Medal Flour is the culmination of time, money, work and study, and is the highest science of Flour making. The wheat from which it is made is selected and properly aged. It makes white, wholesome bread and the daintiest of pastries. In all our experience of selling Gold Medal it has never failed to please. Never a poor baking with it. There is but one Flour milled so widely known as Gold Medal and only one its equal in quality. It is the best of fancy patents and at \$1.00 per sack is remarkably low in price. The time to take advantage of a bargain is while the opportunity is open. We can't tell how long we will continue the \$1.00 price. The Flour is worth more money now than that.

The Charming Bicycle Tea.

Extremely informal is the bicycle tea. The women who live in the suburbs and who have been coming to town all winter to entertainments now have their own innings.

They were too wise to offer to return the invitations during the winter, because people grumble at being asked to go out of town at that season, but now is the time to return such hospitalities. The hostess decides upon a day and dispatches her visiting cards, with "Bicycle Tea" written or printed upon them in one corner, together with the date and hour decided upon.

Five o'clock is a good time. An earlier hour would be too soon for the comfort of the guests.

If the day is fine, try to have the tables for refreshments set out of doors, if possible under shady trees, but, if this is not feasible, upon the piazza. The guests go indoors to refresh their toilets, remove a veil or don fresh gloves, but they do not expect to be entertained there.

The up stairs dressing room is all that is necessary. If the weather is fine, the guests will not enter the parlor, but come straight down stairs out of doors. You can safely rob the parlor of its rugs, easy chairs and potted plants if you have not enough otherwise to dress your porch.

Have small tables conveniently placed. Your easy chairs will be appreciated now, and your hard seated splint or porch rockers will be more comfortable if you set soft cushions on the seats.

Have plenty of ice; it is the chief necessity, for if it is at all warm your guests will be thirsty. Lemonade, iced tea and apollinaris are delicious to thirsty throats.

Lettuce sandwiches, "cooked hats" of brown bread (without crust), spread with pate de foie gras or chicken livers with truffles will do for substantial. Ice cream, crackers and dainty cakes ("sand tarts" are favorites) complete the bill of fare for the "bicycle tea" with the exception of the two hot liquids--tea and chocolate.--St. Louis Republic.

The New Woman's Progress.

A great deal has been written of late years in regard to the new woman, a somewhat vague term expressing the contrast between the clinging, fainting, willowy heroine, dear to the hearts of our grandmothers, and the alert, athletic,

and breezy woman who rules the world today. According as the phrase is used, it becomes a title of honor or a term of reproach, but in either case we are apt to look upon the new woman as a fine de siècle production. The "sweet girl graduate with her golden hair," who

Knows the great uncle of Moses
And the duties of the war of the roses
And the reasons for things--
Why the Indians wore rings
In their red aboriginal noses.

We regard as an outcome of this century, and we have only just become accustomed to the idea of women physicians.

That women should hold professors' chairs in the great female colleges seems quite right and proper, but think of the thrill of surprise and dismay which would fill the breasts of the mothers of this land should a lady, young and attractive, be appointed to train the masculine mind at Yale or Harvard!

On women lawyers we still look askance, at least in the eastern states, and despite the attractions of some of the female divines it will be "long after today" before women clergymen, a strangely contradictory term, win any large or enthusiastic following.--Mrs. H. C. Bolton in Appleton's Popular Science Monthly.

Table Decorations.

Table centers are no longer the new-fangled things, certainly, but they are still much used and are made of all kinds of material. The soft cream silk, fluffed out into billows, edged and crossed with trails of snailax, with sprays of roses, either all of one color (though varying in shade) or harmonizing in tint, laid on it, would look exquisitely with the silver

lamps, especially if you had a rather high basket, filled with roses loosely arranged as if falling out of it, a trail being wreathed round the handle and kept in place with a deftly tied bow of satin ribbon for the centerpiece. Decorations appear to vary now between extreme height and extreme lowness, so that guests may either see each other uninterruptedly over or under the decorations. The epergne, if a really handsome one, might very well be used if artistically decorated either with fruit or trails of roses and snailax. The fact is there is not any very definite fashion, beyond the question of height mentioned above, in table decorations just now, but every one uses what seems best and most artistic in their own eyes

and most convenient for their resources. Clutina glass, Aller Vale Rhodian pottery, Delft, Rouen ware, etc., are all used, and in fact the great point is variety and if possible originality. Granted this latter, especially if combined with beauty, any style is permissible and admired.

Richest Woman in Alaska.

The Klondike region furnishes the latest instance of success in mining achieved by a woman. In the spring of 1875 a plucky Tacoma woman, Mrs. James T. Willis, burdened with the care of an invalid husband, set out alone for the goldfields of the north. When she left Tacoma, she told her friends that she should not return until she could bring a fortune with her. She has kept her word. After two years of prospecting, attended by repeated failures, and when her spirits and her fortunes were at the lowest ebb, reports came to Dawson City of a big placer strike in the Klondike. Mrs. Willis, who was then serving as a cook for the mess of the Alaska Commercial company at Dawson, joined a party of gentlemen, and, hurrying to the new El Dorado, staked a claim from which she has already received more than \$300,000. Not satisfied with this, however, she established a laundry at Dawson City. The venture succeeded from the first. Mrs. Willis is considered the richest woman in Alaska, and there are prospects of her becoming one of the wealthiest women in America.--Exchange.

Order of Robert E. Lee.

There is a unique woman's society in Atlanta which was just one year old on July 4. On that date in 1897 18 women, the daughters of generals in Lee's army, met together to organize an order which should have for one of its chief objects the preservation of the unwritten history of the war of the sixties.

The order of Robert E. Lee is composed of the daughters of the commissioned officers in Lee's army, men who were representatives of southern chivalry. Knowing that their fathers were gentlemen, statesmen and men of affairs, that they gave up their property and position, in many cases their lives, for the cause they believed to be right, these Confederate daughters have formed an organization that they may pay every tribute of honor and respect in their power to the soldiers of the lost cause and that they may preserve a history of their heroic struggle which is fair and accurate.--Atlanta Constitution.
